Objective

Aspiring Developer eager to contribute to a dynamic team by leveraging internship experience in SQL, and front-end technologies. Seeking to grow in a remote, collaborative environment while enhancing real-world software development skills.

Professional Experience

Full Stack Development Intern 08/2025 – 02/2026
Chennai, India

- Developed and maintained full-stack web applications using Java and React.
- Designed RESTful APIs and integrated them with front-end features to deliver seamless user experiences.
- Worked with SQL databases, optimized queries, and implemented CRUD operations.
- Collaborated with senior developers to implement core modules, fix bugs, and improve code quality.
- Used Git/GitHub for version control and participated in code reviews and agile ceremonies.
- I mostly supported with backend RESTAPI and database related tasks.

Web Development Intern, *THE WEBSITE MAKERS* 03/2024
Chennai, India

- Worked on projects, enhancing skills in front-end and backend integration
- Designed responsive user interfaces using HTML, CSS, and JavaScript
- Implemented SQL Server queries to manage database interactions
- Gained practical exposure to software development in a corporate environment

Education

Bachelor of Engineering in Computer Science, *Vels University* 03/2025
India

Skills

Programming & Frameworks
Java, Python

Database
SQL Server - DML, DDL, TQL, TCL, Joins, Stored Procedures

Tools
MS Office, Postman

AWS Cloud Skills
EC2, IAM, S3, CloudWatch, SNS, VPC, RDS

Frontend
HTML, CSS, JavaScript, React

Version Control
GitHub

Soft Skills
Good Communication, Team Collaboration, Quick Learner

OS
Windows, Ubuntu, Linux, Redhat-Amazon Linux

Projects

E Commerce Webs – Frontend

- Developed a responsive e-commerce frontend using **HTML, CSS, and JavaScript**, implementing user-friendly layouts across desktop and mobile devices.
- Designed **3+ reusable UI components** to improve consistency and maintainability across pages.
- Implemented interactive elements and dynamic content updates using JavaScript to enhance user experience.
- Optimized page layouts for mobile responsiveness and cross-browser compatibility.

Responsive Web Page

- Built a mobile-first, responsive web page using **HTML5, CSS3, and JavaScript**.
- Implemented flexible layouts using CSS Flexbox and media queries for compatibility across **mobile, tablet, and desktop** screen sizes.
- Added JavaScript-based interactive features to improve usability and user engagement.
- Applied semantic HTML and structured CSS to improve accessibility, readability, and maintainability.

Blood group detection using fingerprint

- Developed an image-classification prototype using **Python, Django, Django DB, PyTorch, and AlexNet**.
- Applied image preprocessing and deep learning techniques to classify fingerprint images based on the project's target categories.
- Integrated the trained model with a Django-based application for image input and prediction workflows.
- Structured the application to support database operations and model integration for end-to-end prototype functionality.

Certifications

AWS Solution Architect – Associate
In Progress

NPTEL CERTIFICATION - JAVA PROGRAMMING
